VOLUME CVI.---NO 173. ALEXANDRIA, VA., MONDAY EVENING, JULY 24, 1905. PRICE 2 CENTS.

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon.

Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or other intoxicant.

"Your 'Golden Medical Discovery' is a sick man's friend," writes Geo. N. Turner, Esq., (Ex. Financial Secretary International Brotherhood of Teamsters), 2206 California Street, Denver, Colo. "For the past seven years my health gradually failed. I lost my appetite, became nervous and debilitated, very despondent and unable to sleep. No medicine helped me until I tried Dr. Pierce's Golden Medical Discovery. It put new life into my veins and increased vitality until I could once more enjoy life and attend to my business. Eight bottles affected a complete cure and gladly do I recommend it."

Dr. Pierce's Pellets—only one or two a day will regulate and cleanse and invigorate a foul, bad Stomach, torpid Liver or sluggish Bowels.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WEAK HEART S

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol

Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.
MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.
D. KAUBLE, Nevada, O.

WOMEN CAUGHT IN RAID.

Mrs. Naomi Ring, formerly known as Mrs. Naomi Duncombe, the richest widow of Mount Vernon, N. Y., where she owns the opera house and several parcels of real estate, was arrested Saturday in a raid on an alleged poolroom in the rear of a florist's store kept by Stephen Massa. This is the third time she has been caught in alleged poolrooms.

The raid is the result of information supplied by Mrs. Ring's young husband, Patrick J. Ring, and the work of a woman detective, Harriet D. Lewis.

Ring was married to the Mount Vernon widow two years ago, but they have not lived together. A few days ago Ring went to Police Headquarters and told the police his wife was no longer capable of managing her estate, and that she was being duped by sharks and swindlers. He also intimated to acting Captain Eggers that she was about the town then, spending her money foolishly. Eggers put Miss Lewis, his woman assistant, on the case. She soon found what she believed to be a woman's poolroom in the rear of the store. She said that she had gone to the place several times and placed money on the horses. A few minutes before she gave the signal for the raid she says she placed a bet on Chalfonte.

The raid was made by Roundsman Watts and half a dozen men attached to acting Captain Eggers's staff. At the moment when the place was crowded with well gowned women the woman detective gave the signal and the detectives pushed their way through the florist's into the alleged poolroom. There were twenty women in the place at the time, and for some minutes the detectives had difficulty in keeping them quiet. Some of them fainted. A Mrs. Anna Jones, an intimate of Mrs. Ring, was with her at the time. Mr. Ring says the Jones woman and Mrs. Ring have been friends for years, rarely miss a race. Both women were expensively gowned when caught, Mrs. Ring wearing jewelry worth $5,000.

The other women in the place were allowed to go without giving their names, except in the case of Mrs. Ring and her companion. Their names were taken, but for what purpose could not be learned.

BATTLE IN PROGRESS.

A desperate fight for the possession of Tumen Pass is progressing. Thirty thousand Japanese under Gen. Hasegawa are impetuously attacking the Russians. Four bayonet charges have been already repulsed, with terrible slaughter. The Russians are still stubbornly holding their ground.

Before the engagement became general the Japanese attacked a Russian position fifteen miles below Kalkjond at 9 o'clock at night. The Russians held them at Bay until midnight, when they were forced to fall back on their main body. They retired in good order, saving all their guns and losing, so far as known, thirteen killed and forty-seven wounded.

There is no confirmation of the foregoing, but the latest unofficial telegrams from Tokio suggest the imminence of fighting at Tumen Pass.

The Russians are reported to be holding the north bank of the Tumen river. They are busily intrenching, believing the main Japanese advance against Vladivostok will be from northern Korea and Possiet Bay. It is reported that the battle was expected as long ago as June 20.

It is reported that 2,000 Russian infantry and cavalry, with four guns, came into collision prematurely with 300 Japanese cavalry on Thursday last at Mahansan. The Russians retreated with great loss. They showed reluctance to fight.

Reports of a daring reconnoissance of a Japanese squadron in Possiet Bay on July 14 have been sent to London. Three days later the Japanese vessels occupied Russinpen, where there is a vast and splendid harbor. Some of the vessels ran right inside Possiet Bay, which is of great strategical value.

Turned Snakes Loose.

Dr Arnold, an alleged eye specialist, went to Basin, Wyo., selling eye medicine, ten days ago. The doctor brought with him a collection of freaks, among them being a snake charmer, with several boxes of rattlesnakes. Because he had no State licence, Arnold was arrested and fined $60 and sent to jail for a week.

Upon being liberated, he found his freaks had all disappeared, the snake charmer leaving behind all the rattlers. Arnold swore vengeance, and two days ago, about dusk, he went into the center of the town, and, opening the doors of the snake cages, permitted twenty-five big rattlers to escape, He then got out of town on horseback.

A Grim Tragedy

is daily enacted, in thousands of homes, as Death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Cold which cured her, and to-day she is well and strong.' It kills the germs of all diseases. One dose relieves. Guranteed at 50c and $1.00 by E. S. Leadbeater & Sons, druggist. Try them today.

Refuses Large Offer.

An offer of a position as an electrical engineer at a salary of $18,000 a year has been declined by Morris Schateffer, 15 years old, of New York, who prefers to remain in school until next spring. The offer came from the General Electric Company, of Schenectady, N. Y. Schateffer solved a problem for signalling for electric roads and his invention is in use on a part of the Brooklyn elevated system. He said yesterday that he had not yet reached an understanding with the Brooklyn Rapid Transit Company in regard to a price for his invention. He declared his intention to hold out, upon the advice of friends, for $50,000, which is twice the amount offered by the railroad company. Schateffer will be graduated in the spring from Public School No. 109, in which he made himself conspicuous by requesting Superintendent Maxwell to increase his teacher's salary. The boy has long stood at the head of his class. His feats in mathematics, his favorite study, have surprised his tutors. He is always trying to devise shorter methods.

Attacked the Teacher.

Considerable excitement was caused in the Girls Reform School, on the Conduit road, near Washington, Saturday afternoon, when three inmates became mutinous and started a "rough house". During the melee Overseer Beydler was struck a severe blow on the side of the head with a china jar and on the jawbone with a glass tumbler, It was necessary for him to receive medical attention later. Not until the arrival of the patrol wagon from the Seventh precinct, filled with reserve policemen, did the trouble calm down and the mutiny subside. The riotous girls were sent back to their dormitories and the Reform School again took on its usually peaceful discipline.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent. of his earnings. He must spend nine dollars in living expenses for every dollar saved. This being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars For sale by Gibson & Timberman and W. F. Creighton & Co.

Indigestion Cured.

Kodol Dyspepsia Cure affords quick and permanent relief from Indigestion and all stomach troubles, builds up the system and so purifies that disease can not attack and gain a foothold as when in a weakened condition. SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING, JULY 24, 1905.

In addresses at Scranton, Wednesday, John Mitchell, of the United Mine Workers, said that wages do not stand still; and that it is best for the miners to strive for more pay and better conditions, being never satisfied with existing conditions. He added. "If you get a 20 per cent. increase to-morrow, I would have you ask for more." This is an acknowledgement of the claim made by the mine owners that the miners were never satisfied with any increase in pay that might be given them, and after the above advice from Mr. Mitchell there is little cause of surprise at the statement that the coal companies are accumulating a great supply of coal so as to be prepared to resist the demand for another increase of pay which the miners will make by the advice of Mr. Mitchell. Such leaders are dangerous men and are calculated to bring about much suffering not only among the miners but among the poor people of the whole country as was the case during the coal strike of 1902. Strike or no strike, work or no work, pay or no pay for the miners, the salaries of those who bring about strikes go on.

The project of the Producers' Refinery and Fuel Oil Company to build an independent refinery and pipe line from the Kansas oil fields to Kansas City, is at a standstill, with prospects of being abandoned altogether. "This company was formed by independent producers in the Kansas oil fields," said J. B. Levy, the president, "each pledging the production of his properties to the independent company. Land was purchased and right of way for the pipe line secured, and we were preparing to float bonds for the construction of the refinery. Now we find that some of the producers are inclined to back out. This is occasioned by the proposition to build a pipe line to the Gulf from the Kansas oil fields, and by the change of attitude on the part of the Standard Oil Company toward the production in the Kansas oil field." The Standard Oil Company is now taking Kansas oil with little or no restriction and is showing the people of that State what a big proposition they ran up against when they undertook to fight that company.

On the eve of the peace conference, with a suddenness disconcerting to diplomatic circles, the Czar of Russia left Peterhof yesterday on board the imperial yacht Polar Star for a conference with Emperor William, who is cruising on the Hohenzollern in Finnish waters. This procedure is causing considerable speculation in Europe, with no little anxiety in some capitals, especially in Paris, where Emperor Nicholas's cruise to meet Emperor William is the subject of much comment in the press. Certain newspapers express the fear that the German Emperor will influence the Russian Emperor in far Eastern matters, and will hinder the carrying out of the peace programme, while others are of the opinion that Emperor William will seek to estrange Russia from France. It is likely that he will endeavor to carry out the latter purpose.

Premier Balfour today announced in the British Parliament that the Cabinet had no intention of resigning. The statement caused considerable sensation as well as suppressed indignation among all would-be successors of the present English government. The political caldron is always steaming in England, and the outs vs. ins is a case which never leaves the docket. Balfour refuses to regard the vote of last Thursday as the verdict of the people and prefers to believe that his ministry has not lost their confidence, and he refers to incidents in the history of the Gladstone ministry when the government was outvoted on minor issues, but did not resign.

Official dispatches received in St. Petersburg today from Tiflis say that eight persons in high positions have been killed recently by bomb-throwers, and about double that number injured. The destruction that walketh by noon day is becoming more serious daily in the land of the Czar, and no man wearing the insignia of office seems to be safe in that country.

Governor La Follette says "all other issues are secondary to public honesty." To which the New York Tribune adds: "Private honesty ought to find a place in that kind of a programme. Then public honesty would follow as the night the day."

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., July 24.

Mr. Takahira, the Japanese Minister, called at the State Department this morning to announce his departure for New York where he will await the arrival of Baron Komura, the other peace plenipotentiary of Japan. Minister Takahira said that Baron Komura would not come to Washington, but would go directly to New York from the west and would remain there pending the fixing of the exact date for the reception of the peace envoys by President Roosevelt at Oyster Bay. Minister Takahira took the occasion to express his personal gratitude and that of his government for the entertainment and accomodations that are being prepared by the United States for the representatives of Japan at the peace conference. During his absence from Washington the Japanese legation here will be in charge of Secretary Hioki.

Members of the committee from the American Cotton Manufactures' Association, who will confer with Secretary Wilson of the Agriculture Department about a new cotton acreage report later in the day, arrived in this city early this morning. Their names are S. B. Tanner, of Henrietta, N. C.; R. M. Miller, jr., and C. B. Bryant, of Charlotte, N. C.; J. W. Cannon, of Concord, N. C.; and Geo. B. Hiss, of Rhodes, N. C. President Miller stated the commission would not decide whether it desired a new report or not, until it had obtained from Secretary Wilson ideas as to acreage and condition. The commission will insist upon safeguards against leaks and fluctuations in the market.

A high member of the diplomatic corps advances the theory that the meeting of the Kaiser and Czar in finish waters is due to the initative of President Roosevelt. He says that to his personal knowledge the President has not abated one jot in his effort to bring about a speedy and lasting peace between Japan and Russia, but that the frequent disappointments met with in his effort to secure an armistice between the conflicting armies in Manchuria have only tended to spur him on. In diplomatic circles it has been felt that the Kaiser had a greater personal influence with the Czar than any set of individuals in Russia or any foreign country. Between the President and the Kaiser there is a close bond of warmer friendship. It is believed that the President finally called upon the Kaiser to aid him with his efforts to bring about peace in the Orient and suggesting a personal conference between Emperor William and Czar Nicholas, and that the Kaiser accepted with his characteristic promptness.

Acting Secretary of War Oliver today promulgated an official order announcing to the army the death of ex-Secretary of War Daniel S. Lamont, which states: "The services rendered by Secretary Lamont were of the greatest importance to the efficiency of the military establishment, and his interest in the welfare of the officers and men of the army did not cease with his retirement from public office, but continued, unabated, to the end of his life. He was a gentleman of broad and varied culture; of exalted personal character; of quick discernment in public affairs, and of very great administrative ability, whose constant and kindly interest in the welfare of the army strongly attached him to those with whom he was associated in the conduct of military affairs. As a mark of respect to his memory it is ordered that the flags at all military posts be displayed at half staff on the day of his funeral."

Acting Secretary of State Adee today received a personal note from Ambassador McCormick at Paris announcing that the recent unpleasantness between U. S. Minister Clay at Berne, Switzerland, and the French Minister there, had been pleasantly and satisfactorily adjusted. He complained to the State Department by which the matter was referred to Ambassador McCormick.

Wife Murder and Suicide.

William Holroyd, aged 28 years, shot and killed his wife, Lillian, aged 17 years, in Philadelphia yesterday, and then committed suicide by sending a bullet into his heart. The youthful couple were married a year ago, and yesterday's tragedy was the result of frequent quarrels during the last three weeks. Holroyd was a patternmaker at Cramps' shipyard. About 10 days ago the patternmakers at the shipyard went on strike. Holroyd found employment in Newark, N. J., and asked his wife to accompany him there. She refused, it is said, and her refusal led to more quarreling, with yesterday's serious result. Holroyd left a note addressed to "both our mothers and fathers," in which he said: "We bid you good-by. We are both unhappy. Our last wish is to be buried side by side."

The Explosion a Success.

At Portsmouth, N. H., Saturday an electric spark exploded forty-five tons of dynamite placed in 400 charges, and a three-acre ledge that had menaced navigation in the Piscataqua river was destroyed. The setting off of this enormous amount of explosive, said to have been the greatest ever handled at one time in this country, if not in the world, was attended by little danger and by no accident. It was declared a complete success, both by the contractors who had carried out the undertaking and by United States government officials, who have supervised the work. The explosion has removed the point clean with the edge of Seavey's Island, as was planned. By its destruction the channel is widened some 350 feet, and the contract for the work calls for a uniform depth of thirty-five feet at mean low water.

DEATH OF D. S. LAMONT.

Col. Daniel S. Lamont, Secretary of War, under President Cleveland, died at 9:15 last night at his country residence, at Milbrook, Duchess county, N. Y., after a brief illness. The deceased was fifty-four years old.

He was in early life a clerk in a village store, then a newspaper man in Albany, then private secretary to President Cleveland during his first term (1885-89) and Secretary of War during his second term (1893-97). He had been prominently identified since 1889 with street-railway interests in New York city controlled by William C. Whitney and was a vice-president of the Northern Pacific Railroad and a director in other railroads and corporations.

Mr. Lamont, it is said, was the only private secretary to a President, with the exception of Cortelyou, who ever gained fame through his management of that office. Others have held the office who have afterward secured repute. No one has ever gained national distinction by reason of the service in it excepting the deceased. Mr. Cleveland himself was extraordinarily impressed with the tact which his secretary displayed, almost as much by this quality as by the wisdom of some of Lamont's suggestions and his discretion, which seemed almost too mature for one of his years. These qualities also impressed Mr. Whitney, who, while Secretary of the Navy, was already in negotiation with certain great capitalists for important business interests which he undertook to develop as soon as the administration was ended.

Mr. Whitney lifted Lamont out of what might have been an embarassment had he been compelled to look about for a career, and set him right in the midst of that group of great capitaltsts whose plans are believed to embrace the control of the street railway systems in all the greater cities of the United States.

From the rush of political life to that other and entirely different activity which characterize great business operations, Lamont found himself suddenly removed and Whitney discovered that he had not misjudged him. Adaptability was one of Lamont's talents, and he proved quite as serviceable in these great business undertakiogs as he had as the right hand of Cleveland, as he was sometimes called.

Bristow After Senatorship.

Friends of former Fourth Assistant Postmaster General Joseph L. Bristow, who is now winding up his work of investigating the Panama traffic situation, say he would not accept the post of public printer if it were offered to him by the President. Bristow's name has been widely mentioned for this position, as it is known Public Printer Palmer will shortly be allowed to retire. It is gathered from utterances of Bristow's friends that he has not forgiven the administration for his treatment after successfully ferreting out the frauds in the postal service, when the corps of postoffice inspector was transferred from his charge, against his earnest protest, to the direct control of the then Postmaster General, Robert J. Wynne, who, it is alleged, was jealous of the reputation made by Bristow. It is Bristow's intention to return to Kansas with the aim, it is said, of being a candidate for the United States Senate to succeed Senator Joseph R. Burton, who is awaiting a second trial on the charge of accepting money for exerting his official influence in behalf of a get-rich-quick concern in trouble with the Postoffice Department.

George Ford was captured Saturday in an old oilhouse on the railroad near Lowmoor while asleep. He was surrounded by a posse, and had no opportunity of using the firearms which he carried. Persons from near the scene of the murder fully identified Ford. The joint trial of A. J. Hoback and his son, Dr. Fred Hoback, at Floyd Court House, for the murder of John Jett, which began last Monday, ended Saturday night, when the jury, after being out 10 hours, returned a verdict of not guilty in the case of the elder Hoback and finding Fred Hoback guilty of manslaughter and fixing his punishment at eight years in the penitentiary. Fred Hoback's counsel will move for a new trial. The killing occurred last winter, and was the result of a love affair between Jett and Miss Hoback, daughter and sister of the two Drs. Hoback. The young lady's family strenuously objected to the match with Jett and succeeded in defeating an elopement. Later the three men met on Courthouse Square and a quarrel ensued, in which Jett drew a knife and cut Fred Hoback almost to death. Fred Hoback fired several pistol shots into Jett's body, at the same time the elder Hoback struck him on the head. Jett died instantly and Frank Hobock hovered for four months between life and death.

Monument to General Payne.

The handsome monument to the memory of Gen. William H. Payne is to be unveiled at Warrenton about August 1st. The inscription in bronze at the front is:

"Not for empire nor renown, but for right and Commonwealth. To the memory of William H. Payne, son of Arthur Mason Payne and Mary Mason Fitzhugh; born Jan. 27, 18—; died March 29, 1904. He entered the Confederate service as a captain of the Black Horse troop and rose to be brigadier-general of the Second Brigade of Fitzhugh Lee's division; was wounded and left on the field of Williamsburg, May 5, 1862; wounded again at Hanover, near Gettysburg, in July, 1863."

The seal of the Confederate States of America with the words, "Deo Vindice," is at the top of the inscription. Another inscription of the monument, with the seal of Virginia at the top, reads as follows:

"In war and in peace, the soldier of Virginia's honor, this love for his State was the aborbing passion of his life—the motive of every action, the inspiration of every feeling. He loved Virginia with a love far brought from out the historic past. There was no pulse in his ambition whose beatings were not measured from her heart."

Mouse in Her Shirt-Waist.

Piercing yells from a young woman in a crowded street car, followed by a sudden application of brakes, created a panic among the occupants in Omaha Saturday morning. Those in the rear, thinking a collision imminent, made a dash for the platform. The screams frightened a passing team, which started on a mad gallop down the street, filled with people walking to work, and the woman herself passed into a fit of hysterics and was taken home in a fainting condition. The young woman sat in a front corner reading. She wore a loose-fitting shirt-waist. Suddenly she sat bolt up-right, stared vacantly a moment across the aisle and then let out an agonizing yell. Several people offered assistance, but she waved them all back with one hand while with the other she grasped a place in the small of her back and at every move let out another piercing scream. Finally a woman sitting near removed from under the excited girl's shirt-waist a half-grown mouse which had crawled in from the window casing.

Explosion in Shell Room.

An expert of the department, who is one of the heads of the Bureau of Steam Engineering, says that it is inconceivable that the explosion of a boiler could have done so much damage on the deck, as was done to the gunboat Bennington at San Diego, Cal., on Friday. Many naval officers believe, although they have but few facts upon which to base an opinion, that when the lower and middle furance of boiler B. exploded, throwing the boiler with great force toward the stern of the vessel, the front part of the furnace went with equal force forward, passing through the pump room, four or fiv efeet away, and into the shell room, a few feet farther forward. It was here, they think, that the explosion which caused most of the damage on deck occurred.

Today's Telegraphic News

Cabinet Will Not Resign.

London, July 24.—Premier Balfour announced to the House of Commons today that the Cabinet would not resign following the unfavorable vote in the House of Thursday night.

The House of Commons was crowded to suffocation when the session began at 2 o'clock this afternoon. The announcement made by Premier Balfour Thursday night, following the vote on which the ministry was defeated, that he would make a statement to the House today, was responsible for bringing out the crowd.

It was just 2.25 o'clock when Premier Balfour rose to make his statement to the House. He said that the question presented was one of great constitutional importance. According to the established practice, it is not necessary for the government to resign or to advise the dissolution of Parliament when it has been defeated under such circumstances as those under which the unfavorable vote on Thursday night was registered. The belief that if a government is defeated on any subject it should resign immediately, or dissolve Parliament, he declared, is fallacious, as the practice has been quite the opposite of this. There never had been a government which has lasted four or five years or longer, he said, which had not suffered many defeats similar to that of Thursday night. He pointed out that the Gladstone ministry was defeated thrice in 1872 and that the Cabinet did not resign. Under the circumstances the government did not consider the defeat as being occasion either for its resignation or for the dissolution of Parliament. He declared that there is no doubt that the present government continues to enjoy the confidence of the public, and if members of the opposition did not believe this, the opportunity to test the proposition would be presented shortly.

The Premier continued his speech by citing instances of defeats suffered by previous ministries, similar to that of Thursday night, which had not been followed by the resignation of the governments. He dwelt at length upon the policy of former Premier Gladstone in declining to accept small defeats as an intimation that the government should resign while it continued to retain a normal majority of the Commons.

Mr. Balfour added that the cabinet had not suffered from disunion and this was followed with hoots from the Irish benches mingled with cries of "Where is Ritchie?" referring to C. T. Ritchie, former Chancellor of the Exchequer, who was absent.

Continuing, the premier declared that the only cause which would force a British government to resign is a conclusive defeat under all the circumstances of previous notice and with every attending incident to make it clear that the government no longer possessed the confidence of the House.

This statement was greeted with an outburst of applause from the members of the ministerial party and they cheered themselves hoarse in support of their leader.

When order had been restored at the conclusion of Premier Balfour's speech, a friendly discussion arose between the Premier, John Redmond, leader of the Irish members, and Sir Henry Campbell-Bannerman, the liberal leader, with Speaker Lowther, as to the best method under which the House could proceed to debate Mr. Balfour's statement. It was finally agreed that the only way in which this could be done was by committing the Parliamentary paradox of having the government move an adjournment, and after the debate, letting the government members vote against their own motion, while the opposition would support it.

When this plan had finally been agreed to, Sir Henry Campbell-Bannerman arose to open the debate. Immediately the exodus from the chamber began, as the crowd had lost interest in the proceedings and even many of the members left the hall, as the excitement had died out, and the Irish members showed no signs of attempting to create a scene.

Laid Away on American Soil.

Annapolis, Md., July 24.—In the shadow of the buildings where youthful Americans are being trained to emulate his deeds of heroic daring and masterly seamanship, the remains of John Paul Jones were laid away upon American soil this morning. At ten o'clock the body of the intrepid admiral, first of the rank in the navy to which he brought fame, was carried by four French and four American bluejackets from the naval tug Standish across a bunting decked float and placed for a moment upon the seawall of the new basin. The thousands gazing upon the mahogany casket thus saw after the lapse of more than a hundred years the return to the land of his adoption the body of Jones. The ceremonies were simple, but when the Naval Academy shore batteries boomed forth with the fifteen guns salute in honor of the homecoming admiral many eyes were wet. There was a note of sadness in the music of the bands inexpressibly more touching than usually attaches to the military funerals.

The United States vessels and the French cruiser Jurien de la Graviere, all wore their colors at half mast.

The honorary pallbearers were Rear Admiral James H. Sands, superintendent of the Naval Academy; Rear Admiral Charles H. Davis, commanding the Second Division of the North Atlantic squadron; Capt. Benjamin F. Tilley, commanding the battleship Iowa; Capt. E. D. Taussig, commanding the battleship Massachusetts; Capt. William H. Reeder, commanding the battleship Alabama, and Capt. E. E. Gervais, of the French cruiser Jurien de la Graviere.

When the remains had been placed within the vault, Chaplain Clark, standing outside, repeated a short service, concluding with a prayer, the officers of all the ships standing with bared heads while the marines and sailors presented arms about the great square. Following the brief services, two companies of marines from the local barracks fired the customary salute of three volleys, and Trumpeter Bagan sounded taps.

Draped in the American and French flags, the casket will lie in the vault until the completion of the Naval Academy chapel when it will be removed to its final resting place in a grave beneath that structure. At the conclusion of the ceremonies, the sailors re-embarked and went immediately to their ships. The American squadron will get under weigh with the tide at four o'clock this afternoon and drop down the bay to Hampton Roads, where Admiral Sigsbee will rejoin Admiral Evans's fleet.

Kaiser and Czar.

St. Petersburg, July 24.—The belief prevails here that the advice which Kaiser William will give the Czar at their meetings during the present absence of the Emperor from Russia, will be not to grant a constitution except as a last resort. If it becomes necessary to give the people a constitution to prevent a revolution, the Czar will then insist upon modeling the constitution after that of Germany, which does not make the continuance of the ministry in office dependent upon the support of a majority in Parliament. The feeling of resentment against the Czar for seeking advice from a foreign potentate upon questions as to what is to be done in his own country, is spreading. The people do not look with favor upon the meeting between the two rulers at the present time. Anti-German feeling is certain to be aroused among the Russian people.

St. Petersburg, July 24.—Owing to a change made in the route of the Kaiser he arrived at Bjorko, northwest of Kronstadt, this morning.

Berlin, July 24.—The Foreign Office here has been advised that there was a meeting early today between Kaiser William and the Czar near the island of Bjorkoe, off the Swedish coast.

Long Sentence.

New York, July 24.—Edward H. Neidinger, who has been called the vilest man in the world, was sentenced by Judge Foster, in General Sessions today, to nineteen years and 10 months in Sing Sing. Neidinger was convicted of criminal assault. In passing sentence, Judge Foster said: "The press have called you the vilest man in the world. They called you this without knowing as much of your evil conduct as I know. I cannot realize a more dangerous criminal than you. Your whole life was devoted to corrupting the minds and bodies of little girls. You have been indicted for the murder of your own child. You were arrested for ruining the child, you were subsequently forced to marry, and then you treated her so badly that she was forced to flee from you. The record before me shows that you have ruined, as far as we know, 16 young girls. The only charitable view we can take is that you are a degenerate. Nineteen years and ten months hard labor in Sing Sing for you."

Gets Income of $1,200 from 2 1-2 Acre Farm.

Reading, Pa., July 24.—Oliver R. Shearer, residing just beyond the outskirts of this city, has done more on 2½ acres of ground than any other farmer in the country. He supports his family and has an income of $1,200 from its products. The national government has become interested in Mr. Shearer's methods. He says:

"I raise in a season from 5,000 to 7,000 heads of lettuce, 30,000 to 50,000 onions for bunching, 1,500 bunches of red beets rnd 400 stalks of asparagus.

"These are all marketed in time to raise a second crop, consisting of 5,000 heads of endive, 5,000 heads of lettuce, 800 stalks of tomatoes, 1,500 bunches of red beets and 10,000 to 20,000 stalks of celery.

"Economy of land is an important matter, and it is my constant study how to produce the most on the smallest space. An onion patch, 20 by 30 feet, netted me $40 for the year."

Application for Receiver.

Trenton, N. J., July 24.—Chancellor Magie has made an order requiring the Standard Distilling and Distributing Company to show cause in Jersey City, July 31, why a receiver should not be appointed for it, and why the trustees of the company should not be enjoined from disposing of any of its assets. The complainant is Charles L. Rowland who owns 50 shares of the preferred 7 per cent. cumulative stock, and 75 shares of common stock. He asks for the appointment of a receiver for the protection of his interests, and those of the other stockholders, because he charges that the Standard Company is controlled by the Distilling Company of America, which has the sole power of disposing of the former company's assets.

Havana, July 24.—On account of the quarantine which has been established against New Orleans on account of the yellow fever in that city, 27 passengers on the Southern Pacific liner Excelsior, who have arrived here, have been placed in detention quarters for five days The steamer was not detained.

The steamer Vigilancia brought three slight cases of fever from Vera Cruz. These patients have been detained and isolated.

New Orleans, July 24.—A meeting of the State Board of Health to consider the yellow fever situatiou, was begun at noon. Army Surgeon, Moss of San Antonia, Texas, came in this morning to look over the situation with the view of reporting to the War Department on the request of the troops in the Jackson Barracks, to be removed from the city.

The Mayor and council will pass an ordinance and enforce it at once requiring all property holders to screen cisterns and oil gutters, and cesspolls to prevent the hatching of mosquitos.

Baron Komura.

Chicago, July 24.—Baron Komura, Japanese plenipotentiary to negotiate peace with the envoys of Russia, arrived in Chicago with his suite at 9:35 this morning in the private car of James J. Hill. Komura refused to discuss in the slightest degree the forthcoming conference between himself and the Russian envoys. He said, however, that Japan looks to the future with optimism and hopefulness, that the so-called "yellow peril" is wholly a creation of the imagination, that the entire civilized world will profit by their victory over Russia, that the Japanese rejoice in the belief that the advance of the Russian to the southeast has forever been checked. Speaking of President Roosevelt, the Baron said: "Your President, Mr. Roosevelt, has, from the beginning, apparently recognized the value of the idea expressed by a philosopher when he referred to 'plain living and high thinking'. President Roosevelt's idea of the simple life has had its importance demonstrated by the whole body of Japanese people. Japan will recover in a few years from this conflict with Russia. Japan and the United States will flourish in the growth of international relations. Even the Russians are not likely to bear ill will. Our treatment of their sick and wounded has been appreciated."

Vermont Loses Three Towns.

Newport, Vt., July 24.—Three towns in northern Vermont with a total population of 4,500, always supposed to be part of Uncle Sam's dominion, have proven to be located in Canada. The towns are Richford, East Richford, and Stevens Mills. Some time ago a joint surveying commission was appointed to inspect the boundary line, and as a result a strip of land several miles in length and from one-half to one mile in width is found to belong to Canada. On this land is located the three places above mentioned. At Richford is located the Chinese detention station.

If the President does not sympathize with him, it is understood that the Governor will step down and out, for he comes with the avowed intention of either "winning out or quitting his job".

To Be President of Seaboard.

New York, July 24.—Statements were printed this morning declaring that John Findlay Wallace, formerly chief engineer of the Panama canal, is to be made president of the Seaboard Air Line Railway. New York Stock Market.

New York, July 24.—There was a sudden shifting in position after the opening on the part of the large room traders and a number of outside operators who were the heaviest sellers of stocks on Friday and Saturday. This element bought many issues on the fairly large scale all through the first hour and started some urgent covering of shorts The buying is based to a great extent on the break in the price of wheat here and in Chicago, and on favorable reports in regard to the growing crops received by the leading banking interests of the country.

Albert T. Patrick, the lawyer, who is under sentence of death in New York, for the alleged murder of millionaire William March Rice has secured another stay.

It was learned today that Chairman Paul Morton of the equitable society will receive an annual salary of $75,000.

Collapse of a Bridge.

A number of ladies and gentlemen of this city left here Saturday night for the purpose of visiting Mr. Truax, in lower Fairfax county. The members of the party were in an omnibus and everything went well until the vehicle reached the centre of a bridge spanning a run when the structure suddenly collapsed, precipitating the omnibus and its occupants into water and mud. Shrieks and scrambling in the dark followed, and all were more or less injured. The party subsequently placed the vehicle in the road and resumed their journey to their destination, and remained there all night, being afraid to return until daylight. Among those in the omnibus were Miss Georgia and Miss Eva Hudson, Mr. Baker, of Mobile; Lieutenant McCatlin, Mr. James Talbot, his wife and three daughters; Miss Dennis, of Culpeper; Miss M. Kersey, Mr. Layman, of Cincinnati; Mr. Stuart, of North Carolina; Mr. Walker, of Richmond, and Mr. Garret, of Portsmouth. The latter is said to have suffered serious injury.

Completing Double Track.

The last pile in the new trestle of the Washington, Alexandria and Mount Vernon Railway across Four-mile run was driven Saturday morning and the work of laying the stringers that will form the bed for the new double track across the run has been started. It is expected that by the middle of the present week the couple of hundred yards of double track which will connect the two parts on each side of the new trestle will be completed and in service and the double track will then be completed from this city to Arlington Junction, a distance of about five miles. Work will be started shortly on the double track from Arlington Junction to the new highway bridge. In order to reach the bridge it is proposed to make a high fill across Gravelly run, on almost a direct line from the Columbia pike to the bridge. This will do away with an ugly grade that exists in the track now in use. The railway officials are looking for two new motor cars within the next week or ten days. These cars are a duplicate of the new motors now in use on the road and were built at the Brill Car Works, Philadelphia.

The Georgia Veterans.

The members of the Seventh Georgia Regimental Association, who reached this city Friday night after holding a reunion at Groveton Battle Cemetery, remained here until last evening, when they took a train for Fredericksburg, where they will visit the battlefields and cemeteries. Before returning to their homes they will visit the historic places in Richmond and Petersburg. In a body the veterans yesterday morning attended the services at Christ Episcopal Church and heard a sermon delivered by the rector, Rev. William J. Morton. While here they spent much of the time at the Confederate Veterans' Home, on Prince street, where they were royally entertained Saturday night by the ladies of the Confederate organizations of this city. Short speeches were made by the Georgians and members of Lee Camp.

Funeral.

Funeral services over the remains of Job Archer, a glass blower, of Philadelphia, Pa., whose body was found in a field near Waterloo, Md., about two weeks ago, were brought to this city and funeral services were held yesterday afternoon at Mr. Wheatley's undertaking rooms. A delegation from Branch 68, Glass Bottle Blowers' Association, to which the deceased belonged, followed the remains to Bethel cemetery, where the interment took place. The services were conducted by Rev. J. A. Jeffers, of Trinity Methodist Episcopal Church. The pallbearers were Messrs. John Schwarzmann, James Foster, Charles Baker, Arthur Schwarzmann, David Earley, and Harry Ale. It is now generally believed that Archer's death was due to natural causes.

Suicide of Unfortunate.

Dora Lipshutz, a young Polish woman of rare beauty, committed suicide in Baltimore a few days ago. It is said that the woman had been betrayed by a young man who had subsequently placed her in a disreputable house in Baltimore. He also brought her to this city and located her in a similar resort. The woman, when she realized the nature of the houses, vacated them and made her way back to Baltimore. Ruined, neglected and heart-broked, the unfortunate woman resorted to arsenic in order to rid herself of life's burdens, and when found was dying in a park in Baltimore from the effects of the poison. After the woman left this city she sent here for her clothes. Officer Roberts forwarded them to her.

Sunk by a Tugboat.

The tugboat Defiance passed up the river yesterday morning for Washington with a three-masted schooner in tow. She later left for Baltimore and when in the vicinity of Holland Point about 9 o'clock last night, the tugboat collided with the schooner Blanche Haywood, sinking the latter. The schooner belonged to Mr. John Rice, of Jackson's Creek, and was in command of Capt. Harry Pritchett and a mate. She was loaded with grain for this port. The captain says his lights were burning but that those of the tug were not, or if they were he could not see them. After the collision the tug took the schooner in tow but the latter sank in ten minutes after the collision. The masts now can only be discerned. The tug took the two men off the schooner and brought them to this city last night. Today Capt. Pritchett made a report of the affair to the Custom House officers.

Early this morning there was a thunder storm and the skies have been obscured at intervals during the day. At noon the mercury had risen to 82° but the humidity made the temperature appear much higher.

Stamps on Mailed Letters.

A stamp collector received a letter from a friend in foreign parts and was annoyed to find that the postage stamp had been removed, evidently while in transit. A complaint to the postoffice brought the reply that the matter could not be gone into, as the stamp, once affixed to the letter as payment for postage, was the property of the postmaster general, and neither the sender of the letter nor the addressee had further claim to it.—Kansas City Independent.

The Bargain Installment.

Mrs. Suburbs—The conductor was awfully nice coming out on the train. He gave me a double seat. Husband—But you couldn't sit on two seats. Mrs. Suburbs—No, but I was more satisfied anyway. It seemed as if I was getting more for my money.—Detroit Free Press.

The Effect of Discipline.

"Just see how the chickens mind the old hen, Robby," said Mrs. Norris to her son. "Watch them run to her when she calls them."

"I suppose she sat on them when they were little," remarked the infant phenomenon reflectively.

How Invalids Are Recruited.

It is a waste of energy to overeat. But how many persons are tempted to gratify the palate long after the demands of hunger have been satisfied? It is from this class that a large percentage of invalids is recruited.

Economical.

Mrs. Sweet—Do you find it economical to do your own cooking? Mrs. Burnem—Oh, yes; my husband doesn't eat half as much as he did when we had a cook.

A CALLED MEETING of the stockholders of the COLONIAL LOAN AND DEPOSIT ASSOCIATION will be held at the offices of said association, No. 128 south Fairfax street, Alexandria, Virginia, on MONDAY, August 7, 1905, at 2 o'clock, p. m., for the purpose of considering certain resolutions of the Board of Directors of said association, adopted on the 17th day of June, 1905, in Havana, Cuba, which resolutions are as follows:

First. This company being now essentially a Cuban institution, with all its financial interests in Cuba, be it resolved that steps be taken to abolish the present legal necessity of holding the stockholders' meetings in Virginia, United States of America.

Second. In order to accomplish the object of the first resolution, and also to make some changes deemed necessary and expedient, be it resolved that it is deemed advisable that the Directors of the Colonial Loan and Deposit Association be authorized and empowered to transfer, by sale, consolidation or otherwise, to another company which is or may be established under the laws of Cuba by the directors of the Colonial Loan and Deposit Association, or by others, or by both, all the assets and liabilities of the old company other than the rights of or against its stockholders derived from the subscription to or possession of stock, said Cuban company to be formed on the basis deemed most expedient for securing more capital for loans and investments, and with the general powers of a trust company.

Third. Be it further resolved that it is deemed advisable that the stockholders of this company whose stock at the time of transfer is unencumbered and up to date in its payments, exchange their stock for paid-up and non assessable stock of the Cuban company, receiving in stock of the said company an amount equal to the total loan fund credit of their respective certificates of stock, plus 1-6 of 1 per cent. for each month transpired since the first payment on same.

Fourth. Be it further resolved that the stockholders who now have loans may continue their monthly payments as at present, in accordance with the conditions of their respective contracts, until their loans are paid off, but that they may, if they wish, exchange their stock as the other stockholders, and recognize a straight loan in favor of the purchasing company.

Fifth. Be it further resolved that a special meeting of the stockholders of this company be held in Alexandria, Virginia, on the seventh of August, 1905, at 2 p. m., to take action on the above resolutions, and also to arrange all the details of transfer and change that may be deemed necessary and expedient.

The Man Eating Battas.

The man eating Battas of North Sumatra have a postal system. They make use of hollow tree trunks at cross roads, and these primitive letter boxes are largely patronized by young men and women, who read and write and correspond in a degraded native script, which is traced on palm leaves in vertical lines that run upward and from left to right. These Battas, though undoubted cannibals, are skilled in agriculture and in raising stock. They form large communities, have an organized government, hereditary chiefs, popular assemblies and a written civil and penal code. Their picturesque dwellings have been compared to Swiss chalets, and the ground floor is reserved for their live stock. For their skill in ironwork, pottery and weaving they are probably indebted to Hindoo teaching, and their repulsive habit is combined with a belief in a triune deity, Creator, Preserver and Destroyer.

Drinking Hot Water.

There are four classes of persons who should not drink large quantities of hot water: First, people who have irritability of the heart. Hot water will cause palpitation of the heart in such cases. Second, persons with dilated stomachs. Third, persons afflicted with sour stomachs. Fourth, persons who have soreness of the stomach or pain induced by light pressure. These rules are not for those who take hot water simply to relieve thirst, but as a means of washing out the stomach. Hot water will relieve thirst better than cold water and for that purpose is not to be condemned. But hot water is an excitant and in cases in which irritation of the stomach exists should be avoided.

Fourteenth Century Life.

In the fourteenth century people lived in mud huts, with a rough door and no chimney. It was not till a century later that the erection of a chimney was considered more than an indulgence in luxury, a fire commonly being built against the mud plastered wall of the hut and the smoke escaping through the roof. All furniture was of wood. Most persons slept on straw pallets, with a log of wood for a pillow. Even the nobility had no glass in the windows during this time. Cleanliness was not a characteristic of the people, and Thomas a'Becket was considered more than necessarily nice because he had the floor of his house strewn with fresh straw each day.

What Is the Meaning of "Vulgar?"

Sir Walter Scott's daughter once spoke in his hearing of something she could not endure because it was vulgar. "My dear," replied her father, "you speak like a very young lady. Do you know, after all, the meaning of this word 'vulgar?' It is only common. Nothing that is common, except wickedness, can deserve to be spoken of with contempt. When you have lived to my years you will be disposed to agree with me in thanking God that nothing really worth having or caring about in this world is uncommon."—Lockhart's "Life of Scott."

Didn't Work.

A new soprano was needed to fill a vacancy in the church choir, and there were a lot of applicants. Each chose her own music, the idea being to allow the candidates to show off to best advantage. One young woman sang a "piece" which began, "Turn me not away." She was turned away notwithstanding.

False Alarm.

He—Clara, I want to ask you a question. She—This is so sudden! He—I know, but I can't stand it any longer. The fact is one of the legs of your chair is on my foot, and I was going to ask you if you would kindly remove it.
